CAMERA

### ARRI ALEXA

Flexibility, power and economy. ALEXA is a compact and lightweight digital camera that redefines the limits of digital motion picture capture with ultra-fast workflows and image quality akin to 35 mm film. From major motion pictures and high end dramas to commercials, music promos and mainstream television, ALEXA suits a wide variety of applications and budgets.

GENERATORS

### RED ONE DIGITAL CINEMA

The RED ONE is a premiere digital camera that features a 35mm CMOS sensor. It can capture at a resolution of 4K (over 27 times the resolution of standard definition). With the use of 35mm PL mount lenses, the RED ONE offers cinematic imagery at unprecedented quality levels with a similar depth of field as standard studio 35mm film cameras.

### DSLR'S

DSLR technology is being embraced by filmmakers in Canada and around the world. With their ability to capture dynamic HD video, DSLR cameras have enabled new possibilities in indie production. To help you take this technology one step further we also offer lenses and accessories that can help these cameras perform at their most professional level.
